

## Subscription Fee Update

SmarTrack have now revised their subscription policy to include European cover as standard for just £135 annual and £385 for duration of ownership. Upgrade (in 1st year) is £259 making it great value for money.

**This change will be effective 1st of August 2009.**

## Caravan Thefts on the Increase!

Another caravan stolen in Leicester. Good thing that SmarTrack Alert24 was fitted as the Police got it back in just over an hour...hows that for great Police service.

Thank you to all the Police and Leicester Police control room staff from the Customer.

## M3 V8 back in 58 minutes...

At 8.19am in June a customers sister called our SCC to say that the car had been stolen...we positioned it and the Police control room sent a unit out. At 9.17 the Police control centre confirmed that they were with the M3, the car was locked up with no damage...professional thieves doing the usual cleansing process!

Make sure that you have SmarTrack fitted when you let a friend borrow your Mini Digger!

Mr Brown of Somerset (name protected) called our SCC to say that his Mini Digger had been stolen...we tracked the kit to a lonely farm building in Somerset.

In April a new Citroen Nemo was involved in a car jacking and the driver kidnapped.

It turns out that the van was fully loaded with expensive pharmaceuticals ...a target for the professional criminal.

The alarm was raised by the stunned driver thankfully unharmed when he called 999 and informed them that SmarTrack was fitted. We positioned the vehicle and kept a watching brief until the Police arrived within minutes.

The vehicle was then taken for forensic investigation in the hope that these criminals will be apprehended.

## Terex Units found 6 weeks later in Derbyshire.

This bit of kit was fitted with SmarTrack Maxi, part of a fleet of plant owned by a company in Derbyshire.

When the theft happed SmarTrack were unable to receive a signal from the stolen Terex unit...however, there is a pattern of crime usually and the staff at SmarTracks Secure Control Centre know this. The Maxi plant tracker fitted was signal stocked daily when 6 weeks later it came in at 9.01am so what a great start to the day!

It was on a farm where a person had bought the unit in good faith and just reconnected the battery (after 6 weeks of disconnection probably) was then surprised when the Police arrived asking about his Terex unit.

They quickly found out that this person was a victim of crime and a few thousand pounds worse for the experience.

Police are still investigating the case as they suspect it part of an organised crime ring.

The customer and Insurer are very happy and all faith repaired in SmarTrack. Since its recovery 3 more SmarTracks have been fitted and he has told his friends and family.

It just goes to show that you have keep the faith even if SmarTrack do not get your asset back within hours, the staff at SmarTrack never give up on trying to receive a signal back as they do turn up in the most unusual places.

## THEFTS THIS MONTH!

BMW M3  
Nante NT18  
Terex MBR71.HE
